

## The Titanic

The titanic was the biggest boat on earth when it was built in MAY 31 1911. It sank in 15 APRIL 1912 after hitting a ice bug. It was its first time traveling on the ocean. So now I bet that you learnt a lot on the titanic. Bye bye!

## La suite de Fibonacci

La suite de Fibonacci est quelque chose ou tu mets les chiffres les un en dessous des autres :

0 chaque chiffre se fait en  
1 additionnant les deux chiffres  
1 avant lui.  
2 On trouve parfois les nombres  
3 de Fibonacci dans la nature,  
5 comme par exemple, dans  
8 l'arrangement des graines  
13 sur une pomme de pin.  
21  
34  
55

The Titanic sinking, by Maya & Lisa

## Rocket Launch

Saturday 17th of January 2015, Lisa performed her first rocket launch. The blastoff was followed by a 60 meter ascent in 3 seconds and by a successful opening of the parachute 2 seconds later. The return in the atmosphere/lawn happened smoothly.

## Pizza cooking

On Saturday 17th of January 2015, Maya baked her first pizza. She had prepared the dough at her Italian Class at school and we added tomatoes, mushrooms and cheese. We cooked it for 10 minutes and the result was awesome.

## The Simpsons

The simpsons is a very good and funny film. Homer Simpson is a dad that dumped a big tank of pig poop in the lake of Springfield. A dome was placed on the city, but the Simpsons escaped. When the mommy realized that Springfield was in danger, she went back, but Homer refused! Eventually he understood that he had to go back to help his family and save Springfield.
